THE "earth" WITHOUT "art" IS JUST "eh"

Hey there! Thank you for choosing me to create a piece of magic for your home. A little bit about me, I am a Qualified Building Designer and Interior Designer who loves all things related to the home and style. I love creating spaces that are natural, relaxed and love to bring the outside in, my all-time saying and style is "Raw and Organic", but without Art there's no life! Even if it's the smallest, quirkiest, minimalistic piece it creates a character that is related to you and that is what creating a HOME is all about. I have studied Visual Communication, Fine art and Perspective Drawing throughout my studies, however there is something about Abstract art that lures me into a world of the unknown, and that's where the most beautiful things come to life!

Throughout this form, I will gather your thoughts, style, interest's and wishes to create a piece for your home that will make you smile every time you walk past it, I know I always do!
